QUESTIONS & ANSWERS (Q&A)
Khenz District to Barak Village, Panjshir Province
(Questions & Answers provided for informational purposes only)
If any Government responses indicate a change to the technical proposal, it is not official until
and amendment is issued)
20 December 2007

Question # 1: In the proposal schedule there are two items one is Base
proposal item and another is optional item as following:
Total project (Base and Optional)   LS   _____

My question is that should we add both options (Base proposal item and
optional item) in the total sum and should we mention total of both in
the cover letter?

Answer: Yes Add it just as it is requested in Section 00010 Proposal
Schedule and put the total of the Base and Optional item on the
Proposal Schedule. Not sure what you mean by cover sheet, however the
same will apply.

Question#2 is in Part # 3 Road design development that explain as
following:

Contractor is responsible for verifying information and quantities
before biding this project.
Base on above sentence
Should we perform survey before bidding of this project or otherwise
just prepare the quantity from Scope of work that we have on hand?

Answer:

The Assessment that was given out on CD the during the pre-proposal
solicitation is a general assessment. Since it is not a detail design,
it does not include everything in detail that is in the SOW. It would
be highly advisable to visit the site of the road prior to preparation
of the bid.

Question#3: Please explain the below sentence (Preliminary Design) is
this required before bidding or after award?

Answer:

The preliminary design should be included in your proposal package. It
will be used as an indicator of your design capability.

**NOTE: When returning your proposals please be sure to acknowledge all
amendments on the second page of the SF1442 and attach the copies.
Also return section 00600 filed out to the best of your ability, both
acknowledgement of amendments and the section 00600 should be place in
Volumn 11 Cost/Price proposal.**
